Clinical Patient Management System (CPMS)

The CPMS is a secure and fully GDPR compliant IT platform aiming to facilitate the cross-border discussion of rare clinical cases.

The platform is supervised by the Directorate General for Health and Food Safety (DG SANTE) of the European Commission and funded under the EU4Health Programme.

The CPMS 2.0 is open source, distributed under the EUPL license.

About Us

The European Reference Networks (ERNs) are cross-border networks that bring together EU reference hospitals to tackle rare, low prevalence and complex diseases and conditions requiring highly specialised healthcare.

Consent for care

Before you can add a patient to the system you must gain their consent.
Your hospital has a specific form or procedure to obtain consent from a patient for this system.
If you are unaware of this internal procedure, please contact your hospital Data Protection Officer (DPO) and/or ERN specific representative.
